These blue colour-coded bottles from Jantex are for specific use in restaurants & bars, and each hold a maximum capacity of 750ml.

Four main colours are used to separate areas of a venue as part of colour coded cleaning, which helps to stop the risk of spreading germs and bacteria across divided areas in an establishment. The strong jet spray on the top of the bottle ensures maximum efficiency and reduces waste with a reliable, accurate nozzle.

Size

Unit	Height	Width	Depth
Mm	265	110	90
