- A 25% restocking charge will apply for all returned goods.

This 100cm high double door storage facility is a lockable steel cabinet which features a 3-point locking system, hazard warning signs on each door and a raised sump base which is designed to prevent any leakage from the bottom.

It is able to store up to 30 litres in total and arrives fully assembled with 2 keys available and an adjustable shelf. The cabinet is essential for UK businesses to meet UK health regulations which state that any potentially hazardous chemicals in use or kept in storage must be securely housed according to specific criteria.

Size

Unit	Height	Width	Depth
