- Drivers do not unpack or position goods.
- A 25% restocking charge will apply for all returned goods.

Freshly made carbonated water is a great way of adding a splash of theatre to your bar service.

For perfect sparkling water, all you need to do is fill the siphon with chilled water (the colder the better), screw on the top, and then screw in a CO2 charger.

- Use with CO canisters
- Make fresh soda water with ease
- Chilled water will result in better carbonation
- Capacity : 1Ltr
