The freestanding C350 Multivac chamber vacuum packer is a fast, powerful food grade commercial vacuum packing machine designed for bulky foods such as large cuts of meat.

Perfect for use alongside waterbaths and sous vide machines, the Multivac C350 provides consistent dual seals, creating a double seam on each side for additional security against contamination as well as preventing spillage in the cavity.

Size			
Unit	Height	Width	Depth
Mm	1390	690	590
Cm	139	69	59
Inches (approx)	54	27	23
