Present your dips, sauces and toppings in a more Earth-friendly way with these 4oz Vegware compostable cold portion pots

As these portion pots are made from renewable, plant-based PLA, they have an incredibly small carbon footprint and are not stripping the planet of its precious finite materials

- PLA is a compostable, plant-based alternative to traditional plastic
- Compostable within 12 weeks in commercial composting sites
- Greener alternative to standard plastic portion pots
- Has a lower carbon footprint than traditional plastic pots
- The transparent material enables clear viewing at all times
- Lids sold separately (GK104)
- Material : PLA
