With the enamelled cast-iron crepe maker CSG 400, the weekly seasoning is over!

The gas crepe maker CSG 400 is equipped with a Ø400 mm enamelled cast-iron plate. The enamelled coating of the plate substantially reduces the seasoning phase. This long and tedious seasoning phase is normally required before the first use and must be renewed every week. With the Roller Grill enamelled cast-iron plate, the gas crepe maker CSG 400 is in operation from the first pancake cooking and is just as easy to use.
