- A 25% restocking charge will apply for all returned goods.

Entice customers through this elliptical heated deli from CED Designline, a tilted display unit that provides both base and surface heated to an array of breakfast and lunchtime produce.

Creating base heat through heated mats below the drop in and surface heat from infra red quartz lamps, you can modify temperature for both through a control panel on the operators side to maintain the consistency of your chosen food.

Size

Unit	Height	Width	Depth
Mm	535	1525	660
Cm	53.5	152.5	66
Inches (approx)	21	60	25

- Curved display in bright polished steel and aluminium profile
- Features an inclined heated well area and overhead heated mid shelf for eye level food presentation
- Product illumination/ surface heat provided by infra red quartz heat lamps to each 1/1Gn area. Lamps are housed within an elliptical profile gantry and mid shelf
- Base heat is provided to each 1/1Gn area by individual heater mats, mounted under the steel well surface
- Gantry fitted with curved full height toughened glass sneeze screen and side glass for food protection. Glass tilts forward in a locking hinge for ease of cleaning
- 24 hour operation as standard
- Assisted service application
- Features gantry mounted digital temperature display, base heat control panel and top heat control by dimmer switch (to operator side of display)
- Supplied with lifting kit for installation and concealed control box & 2M flexible electrical conduit for hard wiring to a 3.8KW/20a/230v electrical supply
- Curved glass profile is designed to complement other units within the Designline range
- Food display examples : Long term holding (2 - 4 hours) - beans, bacon, stews, curry, pasta in sauce. Short term holding (15-20 mins) - omelettes, eggs
