As the smallest utensil washer in the world, the Winterhalter GS630 makes the most of its compact design with the ability to rinse up to 38 racks per hour, with the capacity to wash crockery and cutlery as well, including gastronorm containers.

Using quadruple water fi Litreation with the assistance of rinse aid dispensers to ensure the best quality wash on every cycle, the machine will switch the wash between the top and bottom of the chamber to make sure every inch of the cavity is thoroughly rinsed.
