Used by some of the most prestigious restaurants worldwide, the Evogro plant growing system makes it incredibly easy to grow your own perfect herbs, micro greens and salad leaves.

A truly innovative solution, the system combines highly advanced internet-connected growing cabinets with monitoring and support services so you get perfectly consistent results every time, without the fuss of maintaining an exterior garden.By growing indoors, the cabinet creates optimal conditions for plant growth all year round, even in busy commercial settings.

Size

Unit	Height	Width	Depth
Mm	2050	630	510
Cm	205	63	51
Inches (approx)	80	24	20

- Price includes delivery, installation and onsite user training
- Stainless steel exterior and interior
- 6 x independent growing zones (1 x high, 3 x medium, 2 x low) enables different plant types and stage of growth in a single cabinet
- Advanced horticultural LEDs with specific wavelengths for plant growth. Evogro Active Spectrum Management technology optimises the lighting mix to suit each crop type and minimise energy consumption
- Hydroponic irrigation system waters each zone automatically to match crop type and stage of growth
- Internal reservoir can be manually re-filled or can be connected to your plumbing with the integrated auto top up and waste connection option
- Sensors monitor the environmental conditions & 24 HD cameras regularly monitor growth
- Data from the cabinet is sent to the Evogro Cloud and is analysed against our models. Cabinet is then automatically updated to optimise growth
- The Evogro app enables you to browse the crop library, manage your grow plan and see when crops will be ready for harvest. It sends notifications & instructions when there are jobs to be done. The App works on iOS and Android phones, tablets & PC
- Cabinet requires internet connection to function. Connect to your network with built-in WiFi and Wired capability. Optional integrated 3G modem with data plan available
- Indoor use only
