Made from pressure cast aluminium covered with a high quality non stick coating, these induction compatible pan are ideal for simmering and re-heating, as well as cooking delicate foods such as fish.

Featuring an extra strong epoxy coated stainless steel handle, hands are kept cool and safe for heat, helping to maintain a safe and efficient cooking environment.

- Induction CompatibleYes
- The very thick aluminium allows for rapid and even distribution of the heat, both on the bottom and the sides, without overheating at any point.
- The extra strong, epoxy coated stainless steel handles are fixed by extremely robust rivets.
- To ensure the cookware retains all of its properties, do not heat over 250C.
- Suitable for all heat sources, including induction.
- Not dishwasher safe
- 45(H) x 320mm
- Material : Aluminium
- Capacity : 2.5Ltr
