Efficient both in its use of space and in its use of energy, the high-powered FilterFlow Automatic Water Boiler is perfect for busy staff rooms and anywhere where employees have to wait for the kettle to boil.

Providing hot water on tap 24/7, the boiler also comes with a filtration system built-in to improve water quality.

Size			
Unit	Height	Width	Depth
Mm	596	250	525
Cm	59.6	25	52.5
Inches (approx)	23	9	20

- Narrow 250mm footprint saves valuable counter space without compromising capacity or performance
- Built-in water filtration system improves water quality and reduces scale build-up. High volume, easy change FilterFlow cartridge
- Easily operated from a large, colour touchscreen display. Menu navigation is quick and easy with the temperature and timer simple to adjust
- Eco setting reduces the volume of boiling water by 50 for quieter periods. The intelligent predictive eco setting learns usage patterns and switches between eco mode and standard mode to deliver the required hot water output in the most economical way
- 7-day timer allows the boiler to be programmed to switch off overnight or at weekends to conserve energy
- Enhanced diagnostics identify possible causes. The on screen diagnostic information will enable the engineer to identify the parts needed and repair your water boiler at first visit
- Power Type : 611
- Power Supply : 613
- Material : Stainless Steel
- Capacity : 9 litres
