The FilterFlow Automatic Water Boiler comes with a twin tank, allowing you to set two different temperatures for the perfect cup of tea.

Are you a bit particular when it comes to your tea Do you feel you should be able to brew black teas at 98C and green teas at 71C Dont worry, we feel the same way

Size			
Unit	Height	Width	Depth
Mm	596	250	525
Cm	59.6	25	52.5
Inches (approx)	23	9	20

- Twin tank model, tanks can be set to different temperatures - ideal for brewing black teas at 98C and green teas at 71C
- Lockable mode prevents water being dispensed without the input of a PIN code, perfect for schools, prisons, care homes and settings with vulnerable individuals
- Narrow 250mm footprint saves valuable counter space without compromising capacity or performance
- Built-in water filtration system improves water quality and reduces scale build-up. High volume, easy change FilterFlow cartridge
- Easily operated from a large, colour touchscreen display. Menu navigation is quick and easy with the temperature and timer simple to adjust
- Eco setting reduces the volume of boiling water by 50 for quieter periods. The intelligent predictive eco setting learns usage patterns and switches between eco mode and standard mode to deliver the required hot water output in the most economical way
- 7-day timer allows the boiler to be programmed to switch off overnight or at weekends to conserve energy
- Enhanced diagnostics identify possible causes. The on screen diagnostic information will enable the engineer to identify the parts needed and repair your water boiler at first visit
- Power Type : 611
