The FilterFlow Automatic Fill Electric Twin-Tap Water Boiler is perfect for busy periods, such as when a coach load of holiday makers pull up outside your cafe and they all want hot drinks.

Twin tap version, ideal for the busiest periods. A Narrow 250mm footprint saves valuable counter space without compromising capacity or performance. The Built-in water filtration system improves water quality and reduces scale build-up. High volume, easy change FilterFlow cartridge. Easily operated from a large, colour touchscreen display. Menu navigation is quick and easy with the temperature and timer simple to adjust. Eco setting reduces the volume of boiling water by 50% for quieter periods. The intelligent predictive eco setting learns usage patterns and switches between eco mode and standard mode to deliver the required hot water output in the most economical way. 7-day timer allows the boiler to be programmed to switch off overnight or at weekends to conserve energy. Enhanced diagnostics identify possible causes. The on screen diagnostic information will enable the engineer to identify the parts needed and repair your water boiler at first visit.
