Keep your kitchen free of hazardous grease build up with this Modena EX1800 commercial extraction canopy hood.

As required by all commercial kitchens this extraction canopy is suitable for use over any gas or electric cooking appliance - this includes fryers, griddles, chargrills, conveyor pizza ovens, or any equipment that produces grease or fumes during the cooking process. The hood removes the grease-laden vapors produced by your equipment and prevents them from accumulating in places where they could become a fire or health hazard, leaving your kitchen clean and safe to use!

Size

Unit	Height	Width	Depth
