The temperature in the stainless steel oven FC 60 TQ rises very quickly: 300 ° C in 10 minutes! This real multifunction oven is equipped with 4 adjustable functions:

- The "ventilated heat" function allows homogeneous cooking of several similar dishes simultaneously. The rotating heat is a mixing of hot air by the gentle and regular action of the thermo-ventilator. The ventilated heat is also used to thaw frozen food or to reheat some dishes

Size

Unit	Height	Width	Depth
