Prevent spills with the worlds first 100 compostable lid.

Produced by Vegware the plastic used to make this award winning hot cup lid is made from corn starch as opposed to oil, which uses 77 less CO2 and if composted the disposable lid will turn back into soil in 12 weeks.

- CPLA is a stronger and more heat resistant form of PLA (plant-based substitute to traditional plastic)
- Completely compostable in under 12 weeks in an industrial composting facility
- Greener substitutes to traditional plastic
- Made from sustainable and eco-friendly plant-based materials
- Has a smaller carbon footprint than traditional plastic alternatives
- Strong construction and sturdy base, ideal for outdoor events
- 15(H)x 79mm
- Material : CPLA
- Capacity : 230ml (8oz)
