Take small steps towards a more eco-friendly operation by switching to these Vegware compostable cold portion pot lids.

As these lids are made from plant-based PLA, they will fully compost within 12 weeks when sent to a commercial composting facility.

- PLA is a compostable, plant-based alternative to traditional plastic
- Will fully compost in under 12 weeks in industrial composting facilities
- Environmentally-friendly substitutes to traditional plastic
- Made with sustainable and eco-friendly plant-based materials
- Has a smaller carbon footprint than traditional plastic alternatives
- Perfect for food and liquids up to 40°C
- Transparent, providing full vision of the product
- For use with the GK103 Vegware compostable cold portion pots (sold separately)
- 70mm
- Material : PLA
- Capacity : 2/4oz
