This Hoshizaki IM-100CNE-HC-23 is a self contained cube ice maker producing up to 105 kg of high-quality cube ice per 24 hours.

Meeting even the strictest hygiene requirements, this true allrounder offers many application possibilities in segments including the foodservice and medical sector.

Size			
Unit	Height	Width	Depth
Mm	800	1004	600
Cm	80	100.4	60
Inches (approx)	31	39	23

- The closed water circuit provides maximum protection against any type of contamination during the entire cubing process
- A dedicated jet of fresh water is injected into each of the closed cells.
- The cell walls block the freezing water's expansion from all sides while reaching down to -30°C during the cubing process.
- Thanks to the automatic rinse cycles, impurities such as minerals, are eliminated from the water resulting in the purest ice possible while your machine is protected from calcification and mineral build-up.
- Last and comes with smart design extras such as a magnetic water pump without direct coupling.
- Compact and is a perfect fit for small spaces.
- The smart plug-and-play design guarantees an easy and quick set-up.
- Easy to use, clean, and maintain.
- Ice type: Medium cubes - 23 (28 x 28 x 23mm)
- Production capacity: 105g/24hr.
- Storage capacity: 38 KG.
- Power Type : 642
- Power Supply : 613
- Material : Stainless Steel
- Capacity : 38 KG
