The Hoshizaki IM-100NE-HC-23 ice maker, produces medium cube shaped ice at a rate of 105kg per 24 hours.

The storage bin has the capacity to hold up to 50kg of ice at a time.

Size

Unit	Height	Width	Depth
Mm	1200	704	506
Cm	120	70.4	50.6
Inches (approx)	47	27	19

- Closed water circuit provides maximum protection against any type of contamination during the entire cubing process
- A dedicated jet of fresh water is injected into each of the closed cells
- Excess water leaves the closed cell through a set of outlets
- Automatic rinse cycles, impurities such as minerals, are eliminated from the water resulting in the purest ice possible while your machine is protected from calcification and mineral build-up
- The cell walls block the freezing water's expansion from all sides while reaching down to -30°C during the cubing process
- Last and comes with smart design extras such as a magnetic water pump without direct coupling
- Compact and is a perfect fit for small spaces.
- Easy to use, clean, and maintain
- Ice type: Medium cubes - 23 (28 x 28 x 23mm)
- Production capacity: 105kg/24hr.
- Storage capacity: 50 KG.
- Power Type : 642
- Power Supply : 613
- Material : Stainless Steel
- Capacity : 50 KG
