The Hoshizaki IM-21CNE ice maker, produces large cubed shaped ice at a rate of 22 kgs of ice per 24 hours.

The storage bin is capable of storing 11.5kg of ice at a time

Size

Unit	Height	Width	Depth
Mm	695	398	451
Cm	69.5	39.8	45.1
Inches (approx)	27	15	17

- Closed water circuit provides maximum protection against any type of contamination during the entire cubing process
- A dedicated jet of fresh water is injected into each of the closed cells
- Excess water leaves the closed cell through a set of outlets
- The cell walls block the freezing water's expansion from all sides while reaching down to -30°C during the cubing process
- Automatic rinse cycles, impurities such as minerals, are eliminated from the water resulting in the purest ice possible while your machine is protected from calcification and mineral build-up
- Last and comes with smart design extras such as a magnetic water pump without direct coupling
- Compact and is a perfect fit for small spaces
- Ice type: Large cubes, Standard (28 x 28 x 32mm)
- Production capacity: 22kg/24hr.
- Storage capacity: 11.5 KG.
- Easy to use, clean, and maintain
- Power Type : 642
- Power Supply : 613
- Material : Stainless Steel
- Capacity : 11.5 KG
