This Hoshizaki IM-240ANE-HC-23 is a modular cube ice maker producing up to 210 kg of high-quality cube ice per 24 hours.

This machine is a modular ice maker and can produce up to 210kg in 24 hours and can be used in conjunction with any of the bins we have available.

Size			
Unit	Height	Width	Depth
Mm	880	560	700
Cm	88	56	70
Inches (approx)	34	22	27

- A dedicated jet of fresh water is injected into each of the closed cells.
- Excess water leaves the closed cell through a set of outlets.
- The cell walls block the freezing water’s expansion from all sides while reaching down to -30°C during the cubing process.
- Like all Hoshizaki Ice makers, the IM-240ANE-HC-23 is designed to last and comes with smart design extras such as a magnetic water pump without direct coupling.
- The variable setups with modular bins and bases allow the user to mix and match depending on individual requirements and conditions.
- The smart plug-and-play design guarantees an easy and quick set-up.
- Computer controlled.
- Air cooled.
- Ice type: Medium cubes - 23 (28 x 28 x 23mm)
- Modular
- Power Type : 642
- Power Supply : 613
- Material : Stainless Steel
- Capacity : 210 kg/24 hr
