Providing impressive performance and dependable durability, this King KP1200 upright solid door catering fridge is engineered to hold your cold food investments in a food safe environment.

Properly storing food is imperative, so make sure that your operation is outfitted with a refrigerator that's durable, reliable, and easy to use! Built in stainless steel, this unit features interior shelves, self-closing doors, and an automatic defrost feature all designed for your convenience. Maintaining interior temperatures between 0 and 8 degrees centigrade, the refrigerator relies on eco-friendly R290 refrigerant, making it not only beneficial to you and your customers, but to the environment, as well!
