Easily serve your customers delicious ice cream with this Nice Ice NT6 soft serve ice cream machine with air pump.

Great for enhancing the dessert menu at your establishment, this Nice Ice NT6 soft serve machine with an air pump can be used with various mixes to serve a wide range of popular frozen treats, including soft serve ice cream, or yogurt, and even sorbet! This machine's air pump injects air into the ice cream to increase its volume. Not only does this allow you to use less ice cream mix while serving more cones, saving you both money and labour cost, but this also creates a lighter and softer product that your customers will love!

Size

Unit	Height	Width	Depth
