The Lucky Dragon RC10 commercial rice cooker is very simple to use and can produce a huge 23 litres of perfectly cooked fluffy rice from just 10 litres of dry rice.

Exceptionally user friendly, the rice cooker automatically switches from cooking to heating when the cooking cycle is complete. The lid and body of the cooker are made from stainless steel whilst the inner pot is easy clean and completely non-stick, making it easier than ever to make the perfect rice. Creates roughly 92 portions based on a full load (based on 250ml servings).

Size

Unit	Height	Width	Depth
