This Best Frost SR200 Undercounter Fridge Stainless Steel 150 Litre undercounter refrigerator will provide you with a dependable cold food storage solution.

Because of its undercounter design, this refrigerator effortlessly adds cold storage space beneath a pre-existing countertop and doesn't require additional space for its own footprint. This makes it easy to add food storage to an otherwise cramped kitchen, maximizing the space available. Made of stainless steel and using eco-friendly refrigerant to keep cool, the model provides long-lasting durability and makes for a smart investment. It requires a single 13 amp plug for installation.
