# Triple heavy duty stainless steel single tank gas fryer by Pitco. The VF35 provides impressive output and is ideal for busy professional kitchens.

The fryer is specifically engineered to make cooking and maintenance faster and easier. The atmospheric burner system uses three stainless steel tubes to quickly bring the oil up to cooking temperature, whilst also quickly recovering temperature when filled with frozen foods. The deep cool zone ensures food particles don't burn, helping to extend the lifespan of the oil, therefore reducing running costs. Cleaning is easy too, thanks to the time-saving easy-clean stainless steel construction throughout.
