Serve up fluffy, golden-brown waffles for hungry customers using this instaCook WM1/R non-stick rotary waffle machine with digital timer.

This waffle maker comes with a single plug and 1300W of heating power to make your signature waffles and keep up with your busiest hours. Its efficient cooking system and rotating head ensures the consistent even baking and cooking for perfect waffles. A digital timer is fitted making this ideal for busy periods without needing to constantly check on cooking.
