

CARE AND MAINTENANCE OF CHAIR

PRODUCT CODE GR367, GK999, CF366, CF367, CF368, DR307, DR308

If you have purchased one of our UPHOLSTERED chairs please pay attention to the following instructions:

Maintenance:

- Cleaning of upholstery fabric can be done by brushing or vacuuming. This should be done regularly.
- When choosing cleaning products please refer to the Manufacturer's instructions for suitability of use on fabric upholstery.

Important: Do not expose your Chairs to direct or prolonged sunlight, heat from Radiators or other heat outlets as this may cause fading. Avoid extremes of Humidity.

For Dried Soiling:

- Gently brush with a soft brush and/or clean with a vacuum cleaner.

For Wet Soiling and deep cleaning:

- Gently remove any excess soiling from the surface with absorbent paper. With a clean damp cloth and a mild soap solution, gently remove the stain. Do not soak the fabric surface, dry immediately with a clean cloth.
- Do not allow stains to dry. Contact with heat, light and air will fix the stain and make it harder to be removed.
