INSTALLATION AND COMMISSIONING

This product is heavy; prior to installation a handling assessment should be made.

This appliance must be earthed. An equipotential bonding terminal is provided to allow cross bonding with other equipment.

Means of isolation with at least 3mm contact separation in all poles must be incorporated into the fixed wiring of this appliance.

The fixed wiring insulation must be protected by insulated sleeving having a temperature rating of at least 60 Deg C.

Supply cords shall be oil resistant, sheathed flexible cable not lighter than ordinary polychloroprene or equivalent elastomer sheathed cord (code 60245 IEC 57).

This appliance may be counter or wall mounted. For either installation, remove and discard the 2 transportation screws (A) from rear panel (Fig 2).

Install this appliance on a level surface ensuring all vents are unobstructed. Any partitions, walls or furniture must be of non-combustible material (see Fig 2). Minimum distances A 300mm B 500mm.

Do not install above any heat source the unit vents from the underside and this could cause damage to the unit.

Warning: During installation do not place on surfaces or near walls, partitions or kitchen furniture and a like – unless they are made of non-combustible material or clad with non-combustible heating-insulating material, and pay attention to fire prevention regulations.

Electrical connection

The electrical supply cable enters the unit through a cable gland in the rear panel with access via a removable side panel (see Fig 1).

Connection of the electrical supply cable is to a terminal block behind the side panel. Open the protective cover on the terminal housing where indicated using a flat bladed screwdriver. Fit a suitable cable into the strain relief and then to the terminal block.

OPERATING INSTRUCTIONS

Control panel

Fig 2

- A Timer 0-15mins
- B Off – Off position
- C Left heating element ON
- D Left and centre elements ON
- E All three heating elements ON

Only qualified or trained personnel should use this appliance.

This appliance has 3 cooking modes switching between modes during the cook time is possible.

Switching on

After selecting the desired cook area turn the timer to start the heating cycle. Adjust the hood to the desired height.

Note: At cycle end the timer bell will sound and heating elements will turn off.

Note: The unit should not be used without the collection tray and grill rack fitted.

Shutting down

Turn the control knob to the 'Off' position and switch off at the isolating socket. Be aware that the appliance will remain hot for some time.

CLEANING

Your Lincat product has a manufacturer's warranty. This requires you to maintain and care for your product and follow maintenance instructions. If you fail to maintain your unit or damage components Lincat may charge you for a warranty repair. Please check the website for terms and conditions.

Do not use a water jet or steam cleaner, and do not immerse this appliance.

Clean all panels with warm water and mild detergent, do not use abrasive materials or cleaners containing chlorine. Dry with a soft cloth.

SERVICING, MAINTENANCE AND COMPONENT REPLACEMENT

All servicing, maintenance and component replacement on this appliance should be carried out by one of our recommended service engineers.

FAULT FINDING

Please refer to the Service Help Desk number on the final page of this manual.
